

Shin-I S-B17SL

beader

Quality used horizontal beading machine with 4 heads.

Technical specifications

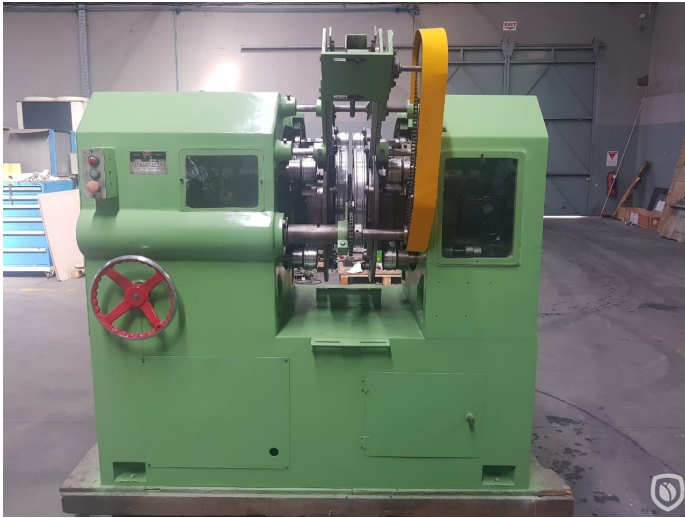

CazProductNumber CPN	5193
Name	Shin-I S-B17SL
Tooling	127 mm
Year of Construction	1993
Can height min.	180 mm
Can height max.	280 mm
Can / Ends diameter minimum	127 mm
Can / Ends diameter maximum	178 mm
Can shape	round
Speed (up to)	120 cans per minute

自動滾加強環機 AUTOMATIC BEADING MACHINE

S-B17S 系列自動滾加強環機採用臥式設計，特別加強滾輪之結構強度而使用 V 形滾輪設計，使補強環與母體動一齊滾動一致，使用 4 對滾輪對滾加強輪，適用範圍廣，加上多重安全系統以及維修極簡便快速，使本系列滾加強環機成為中國加強環機最佳選擇。

S-B17S series beader with horizontal design for can body beading. Special V roller driven by cylinder cam for can roller not only increase can body strength, also reduce plate cost. Equipped with timing roller and sensor for body feeding. This improvement make it more easy for operating and adjustment. It is the reason why S-B17S series beader with one of best beader in world.
