Krupp SDvt II

duplex slitter ● sheet feeder

Pre-owned duplex slitter with feeding unit. The duplex slitter is equipped with a tandem axis frame for the second slitting operation, significantly reducing the time needed to adjust the can height. Especially useful in the production of aerosol cans. The typical changeover time is 3 hours, but now it takes only 20 minutes. Previous owner adjusted the height between 75 and 300 mm. The hard metal cutters can be adjusted hydraulically.

Technical specifications

CazProductNumber CPN	6498
Name	Krupp SDvt II
Tooling	65 mm
Speed (up to)	40 sheets per minute
Sheet width max.	1200 mm
